

FIG 1

FIG 2

A schematic diagram of a medical device, likely a catheter or probe, showing a U-shaped tube with a control unit. The device includes a main tube (18) with a side branch (24) and a control unit (10) with a display (25) and a control knob (23). The control unit is connected to the main tube via a cable (22). The main tube has a dashed line (19) indicating a central axis and a dashed line (25b) indicating a side channel. The control unit has a display (25) showing a grid of small circles (31) and a control knob (23). The device is labeled with various numbers: 10, 12, 18, 19, 22, 23, 24, 25, 25a, 25b, 31.
